

## Has The Devil Stolen Your Prayer Life?

This Newsletter is to inspire you to pray more, so that God can bless you more; then you can be a great blessing to God's Kingdom and humanity.

John Wesley said, "It seems God is limited by our prayer life — that He can do nothing for humanity unless someone asks Him."

When I read this statement years ago, I was so energized that I launched out into a prayer life that I know has brought me into a supernatural life with God.

Now I'm not saying that I have always obeyed God on this subject of prayer. There have been times that Satan distracted me from my prayer time. When this happened, I watched God's super natural power dissipate from me. But when God finally got my attention and I picked my prayer life back up, His power started coming back.

In our modern day there are many things that can distract us from the most important thing that God has given us - the right to communicate with Him. God should be our best friend. When we pray, we become closer and closer to Him. I want to give you some clues on how you can build your own prayer life...

In order to build a prayer life, there must be a designated time given to prayer each day. Jesus said for us to enter into our closet and shut the door. Now He didn't necessarily mean to go into a clothes closet, He was saying for us to go to a private place where there are no distractions. My private place has been in many different places. I've learned that my head phones or my ear buds can be my closet - He just wants our complete attention.

God told me that He made mankind to be a creature of habit. He said that if I would designate a period of time to prayer every day, it would be very hard for Satan to steal it from me. So for over 30 years, I have gotten up in the morning and prayed. When we started the Christian Center, He told me to have Morning Prayer at the Church house. We have encouraged people to find a place in the room for private prayer, then after a period of private prayer, we have a time of corporate prayer. Even when I'm around others that are praying, I put my ear buds in; and I have my time with the Lord.

I have seen God completely change people from Satan's depression to God's joy as they spend time fellowshiping with God in prayer! Now Jesus also told us to pray without ceasing. That means that He wants us to talk to Him all day and allow Him to talk to us. We should be aware of His person being inside of us.

I want to close today's Newsletter by saying that if you take this challenge to build a prayer life, you also need to get ready for God's blessings and manifestations to come. You will live a supernatural life in Christ!

Love you,

Pastor Paul
