

What Are We Seeing?

Our world today focuses on people's appearance rather than what is on the inside of them. This gives Satan a big advantage, when it comes to his ability to deceive. Therefore, we Christians should not be like the world. We should look through spiritual eyes; not just our physical eyes.

Now you might ask me, "What are spiritual eyes?" To answer this question, we must first understand what physical seeing really is. Our eyes, which are just cameras, take pictures and send the images to our brain. Our mind then receives these images from the brain and uses them to make decisions concerning what was seen. Therefore we don't see physical things with just our eyes. We really see by the eyes, the brain, and the mind working together.

Now a physically blind person still sees; even though their eyes are blind. They see by using their other four senses along with their brain and their mind. They feel, so they see through the touch. They hear sounds, so they see through those sounds. When people speak to them, they see pictures through those words, etc.

The Bible is God's way of letting us see things spiritually. We must read and study the Bible and listen to people that speak God's Word by His Spirit. When we do, our mind is renewed and our spiritual eyes will be opened. However if we fail to do those things, we will stay blind to God's World of the Spirit. The spiritual world is all around us, many times sharing the same space as the natural world. If people would suddenly have their spiritual eyes opened, they would be shocked at what they saw.

Faith and natural vision are a lot alike. In the natural, you believe by what you see. My natural eyes take pictures constantly; and by those pictures, I believe that what I'm seeing is real. But when I read and hear and by faith believe the Words of the Bible, my spiritual eyes are opened; and I see spiritually. We can't see God or angels or demons with our natural eyes; and I believe God chose to keep the spiritual world hidden to natural man, because He wanted us to live by faith. It pleases God so much when we trust in the Words of the Bible.

All of the powerful things that Jesus did while He was on the earth were by the Holy Ghost; and over my 40 years of being a Christian, I've experienced many things that could have only happened by God's Spirit.

As Christians, we must read God's Faithbook called the Bible; then we can team up with Him and do the same works. We must choose to let God speak to us through the Bible. Also we must submit ourselves to people that speak to us through the Word of God and the Spirit of God. They will be able to help open our spiritual eyes.

I leave you with these verses from the Bible. Let them inspire you to start seeing spiritually.

Love you,
Pastor Paul
